

Mulgara - Bug #101

Explicit rollback throws exception if called after implicit rollback.

04/18/2008 02:30 PM - Andrae Muys -

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Andrae Muys -	% Done:	0%
Category:	Mulgara	Estimated time:	0.00 hour
Target version:			
Resolution:	fixed		
Description			
<pre>setAutoCommit(false) query(corrupt-query); - triggers rollback. rollback();</pre>			
throws exception (attempt to reserveWriteLock without write-lock).			
should be a nop.

Revision 1098 - 07/20/2008 01:01 PM - ronald -

Merged branch mgr-121-lockrecovery.

This contains three sets of changes:

1. support for idle and transaction timeouts - this closes #121, #122, and #125.
2. synchronization fixes and simplifications for the transactions
3. miscellaneous small fixes to the transactions - this closes #101.
