

Mulgara - Bug #107

XMLLiterals have heavy validation

05/12/2008 09:59 PM - Paula Gearon

Status:	Closed	Start date:	
Priority:	Normal	Due date:	
Assignee:	Paula Gearon	% Done:	0%
Category:	Mulgara	Estimated time:	0.00 hour
Target version:			
Resolution:	fixed		
Description <p>The factory for XMLLiterals pastes the text into a stub of RDF and runs the parser against it. This can fail in Eclipse if serializer-ver.jar is not in the classpath. More importantly, this is expensive, and unnecessary when loading the datum out of the string pool.</p> <p>The validation should be reviewed, and completely avoided for loading from the string pool.</p> <p>See org.mulgara.store.stringpool.xa.SPXMLLiteralImpl.validate(String):101 for details.</p>
