

Mulgara - Feature #122

Support XAResource.setTransactionTimeout

05/19/2008 12:38 AM - ronald -

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Andrae Muys -	% Done:	0%
Category:	Mulgara	Estimated time:	0.00 hour
Target version:			
Resolution:	fixed		
Description			
MulgaraXAResource currently ignores the timeout and returns false. Instead it should set the underlying transaction timeout.			
This depends on #121 for complete functionality.			

Associated revisions

Revision 1098 - 07/20/2008 01:01 PM - ronald -

Merged branch mgr-121-lockrecovery.

This contains three sets of changes:

1. support for idle and transaction timeouts - this closes [#121](#), [#122](#), and [#125](#).
2. synchronization fixes and simplifications for the transactions
3. miscellaneous small fixes to the transactions - this closes [#101](#).

History

#1 - 06/06/2008 04:16 AM - ronald -

Actually, this does not depend on [#121](#) because this is a different timeout, namely a limit on the total length of a transaction.

#2 - 06/06/2008 05:53 AM - ronald -

Done in [r977](#).

To be closed when [source:branches/mgr-121-lockrecovery](#) is merged into trunk.

#3 - 07/20/2008 01:01 PM - ronald -

- Status changed from New to Closed
- Resolution set to fixed

(In [r1098](#)) Merged branch mgr-121-lockrecovery.

This contains three sets of changes:

1. support for idle and transaction timeouts - this closes [#121](#), [#122](#), and [#125](#).
2. synchronization fixes and simplifications for the transactions
3. miscellaneous small fixes to the transactions - this closes [#101](#).
