Target version:			
Resolution:	fixed		

Description

[[ItqlInterpreterBean]] does not close subanswers due to an inverted logic bug

in appendSolution():

  if (tmpAnswer == null) {

    tmpAnswer.close();

  }

The attached patch fixes this and cleans up the code a little (the

check is not needed and should therefore be removed, as all it does is

create the opportunity for bugs).

History

#1 - 02/18/2007 07:10 PM - Paula Gearon

Patch applied and checked in.
