

Mulgara - Bug #64

Distributed Blank Nodes not reused for select/insert

06/15/2007 05:39 AM - Paula Gearon

Status:	Closed	Start date:	
Priority:	High	Due date:	
Assignee:	Paula Gearon	% Done:	0%
Category:	Mulgara	Estimated time:	0.00 hour
Target version:			
Resolution:	fixed		
Description			
Insert/select from one server to another leads to blank nodes not being properly recycled. This means that one blank node used 5 times will be inserted as 5 separate blank nodes.			

History

#1 - 06/23/2007 01:12 AM - Paula Gearon

Fixed.

Note: Uses an on-disk map for scalability, but there should be an in-memory map to handle the first couple of thousand or so before a file is created.
